

Material and settings log

Record a source-backed starting point and the outcome of your own test for each exact blank. Duplicate this page as needed.

Material record 1

Date / project	_____
Blank name / exact SKU	_____
Process / equipment model	_____
Source URL / checked date	_____
Source time / temp / pressure	_____
Preparation / orientation	_____
My time / temp / pressure	_____
Result / next adjustment	_____

Material record 2

Date / project	_____
Blank name / exact SKU	_____
Process / equipment model	_____
Source URL / checked date	_____
Source time / temp / pressure	_____
Preparation / orientation	_____
My time / temp / pressure	_____
Result / next adjustment	_____

Your notes are local project records. Do not copy them into another blank's manufacturer setting. Use the accompanying spreadsheet when you need sortable records.
