

Equipment and setup card

Keep this beside your equipment. It records the source and your own result separately, so a later adjustment does not become a public recommendation.

Equipment and materials

Printer model / region	_____
Installed ink system	_____
Paper product / size	_____
Press or oven model	_____
Blank name / exact SKU	_____
Transfer process	_____

Instructions for this combination

Instruction source URL	_____
Source checked date	_____
Source equipment scope	_____
Source time / unit	_____
Source temperature / unit	_____
Source pressure wording	_____
Preparation / peel / cool	_____

My project record

Project / date	_____
Actual time / temperature	_____
Actual pressure control	_____
Result and next adjustment	_____

Write unknown when a source does not specify a value. Keep manufacturer instructions and personal test notes distinct. No values are prefilled because the correct combination depends on the exact blank, process, and equipment.
